LOGICON TECHNOSOLUTIONS
Automation beyond Imagination

Smart Automation for Smarter Manufacturing Boosting Productivity & Profitability

At Logicon, we blend technology and process expertise to simplify complex manufacturing. Our automation and digital manufacturing solutions empower teams to make faster decisions, reduce waste, and optimize costs – thereby delivering higher profitability

Who We Are

Logicon Technosolutions is a leading Industrial Automation and Digital Manufacturing Solution Provider with over 21+ years of experience and 120+ engineers delivering projects across 25+ countries.

Logicon specializes in process automation, MES, and data intelligence, empowering manufacturers to improve efficiency, ensure consistency, and achieve traceability across their operations.

With proven expertise across multiple industries, Logicon helps customers connect their plants, people, and processes - transforming traditional factories into smart, connected, and efficient operations.

Why Choose Us

- **Trusted Expertise** — 21+ years of proven automation excellence
- **Global Partnerships** — Rockwell Automation Platinum Partner, Ignition Certified Partner, AVEVA System Integrator, Promtek UK
- **End-to-End Capabilities** — From PLC/SCADA to MES & Analytics
- **Industry-Focused** — Deep process expertise in multiple industries
- **Quality & Compliance** — UL and CE Certified Systems
- **Sustainable Impact** — Reducing waste, energy, and downtime through smart automation

PLATINUM System Integrator — A ROCKWELL AUTOMATION PARTNER
AVEVA Partner Ecosystem System Integrator MEMBER
Ignition Credentialed Integrator
promtek

c UL us LISTED
CE
SYSTEM INTEGRATOR GIANTS 2026

Our Services

Industries Served

- FMCG, Food & Beverages
- Life Science / Pharmaceuticals
- Chemical
- Oil & Gas
- Animal Feed
- Power, Cement, Infrastructure
- Textile, Fibres
- Automotive

Industrial Automation

- PLC, SCADA, HMI, and control system integration
- Migration & modernization of legacy control systems
- Remote support, lifecycle services & training
- UL & CE certified Control Panels Design and Assembly

Digital Manufacturing

- Production scheduling & execution
- Real-time OEE & performance monitoring
- Traceability & quality compliance
- Digital batch records & reporting
- ERP & Cloud connectivity for smarter decision-making
